

January 11, 2021

ECE1 family,

This afternoon I was notified of a possible COVID-19 exposure that could affect the ECE1 classroom. Currently, no one in the classroom has tested positive for COVID-19 and there is no action required in the classroom aside from classroom disinfecting which occurs each night. According to the Health Department, the timing of this situation puts exposure as very unlikely, but I wanted to make you aware of the situation. I will be in touch when I have more information.

Please contact me with any questions.

With love,
Susan Malinoski
