

November 18, 2020

Dear K1 and TH2 families,

Yesterday afternoon I was informed of a possible COVID-19 exposure situation. This afternoon I became aware that the timing of the possible exposure is such that it may affect some members of the K1 and TH2 families. Currently, no one in the classroom has tested positive for COVID-19 and no action is required with K1 or TH2 students or the classrooms.

We will continue with the rigorous safety protocols (mask wearing, hand sanitization, temperature checks, social distancing, and cleaning) we have in place. We have been unwavering in our safety procedures and I am grateful that the school community has been supportive of these processes.

Open communication in our community will be vital as we navigate learning in the time of COVID-19. We must remain diligent about safety practices, both in school and out of school, so that we remain healthy and able to attend school.

I will be in touch should anything change with this situation.

Please keep all people affected by the virus in your prayers and contact me with any questions.

With love,

Susan Malinoski
